BULL VIP PASS **WHITEPAPER**

Introducing the "Bull VIP Pass" NFT, where we unite as a thriving crypto community on Hedera! Bullbar proudly stands as a top-notch Meme and utility token, and now, the VIP Pass takes it up another notch.

Curious about minting?

We'll launch through Kabila on Hashpack's DAPP, so familiarise yourself with it! Holders of \$Bull tokens will be entitled whitelist access from 6pm until 7pm (GMT); Though this is stackable, so make sure you are ready on launch day

The remaining VIP passes will then open to the public at 7pm (GMT)

Let's talk sustainability, tokenomics & benefits

- Over 6 months **2 Billion \$Bull tokens** will be airdropped in 12 instalments to all Bull VIP Pass NFT holders. 4 weeks after mint date airdrops will start. We will be holding weekly NFT raffles for VIP pass holders over 4 weeks, until \$Bull airdrop begins.
- When the collection is fully minted we will **BUY** back \$Bull tokens with 8% of the NFT VIP pass revenue... & **BURN** them!
- Additionally we have 8% royalties on secondary markets, 50% of which will be used to **BUY** back & **BURN** also.
